ADDENDUM TO STALLION SERVICE CONTRACT: COOLED SEMEN

This is an agreement for the 20___ breeding season (Feb.1-July1) is made and entered into by and between John and Cindy Baltezore of Lincoln Stables, herein designated Breeder and_____, herein designated Mare Owner.
Mare Owner agrees to breed_____, #_____
to stallion_____, #_____.

In addition to the terms and conditions specified in the breeding contract, the following additional terms and conditions apply to those mares bred off the premises with SHIPPED COOLED LIVE SEMEN.

1. The additional charges for shipped cooled semen are as follows:
    a. There is a collection charge of $150.00 for the first shipment of cooled semen. Collection/shipping Fee of $250.00 is paid before additional semen will be shipped. There will be a maximum of three shipments of semen. In the event the mare does not conceive on the third shipment, mare must be serviced onsite at Breeder's farm.
    b. Deposit on Equitainer $150.00. Refundable after container is no longer needed. Damages will be assessed accordingly. Owner may supply his/or her own approved shipping container.
    c. Counter to Counter via airport: $100.00 for this service. If possible give advance notice if using this method.
2. Mares on premises of Breeder's Farm have a breeding priority on any given day, therefore the Breeder makes no guarantee cooled semen will be available for a specific day. However, Breeder will do their best to accommodate all requests.
3. The live foal guarantee will apply as stated in the breeding contract. This guarantee is not transferable or non assignable.
4. The above stallion has been DNA tested. The sperm count, motility/collection and packaging process will meet the quality and quantity standards.
5. Mare Owner Responsibilities:
    a. It is highly recommended to send the mare to an approved Breeding Center, Vet Clinic, or specialized technician. Mare owner must provide us the name us the name of the professional who will be in charge of ordering semen and palpating the mare until ovulation.
    b. Understanding of Mare Owner that communication is very important for a successful breeding. The stallion manager has to be contacted: A) to get permission to induce cycle B) to notify when the mare is coming into heat C) notify 48 hours before anticipated ovulation D) order for semen by 9:00 a.m. CST on the day of the shipment.
